How USPS Tracking works

When you use Click2Mail.com, USPS Tracking service is included free. You'll have online access to the date, time, and ZIP Code of delivery and will know when your document arrived in the recipient's mailbox. Priority Mail Express includes proof of delivery signature record (choose "signature required" when you select options in Mailing Online Pro).

More document creation, automation, and management options

Whether you want to submit a single document or automate the production of thousands of mailpieces, our expert support staff can guide you to an ideal solution for your situation. We offer an ever-growing collection of tailored integrations for hundreds of programs (such as SalesForce, Quickbooks, Zoho Apps, and Google Sheets) employing our own customizable APIs, PDF OCR tools, and popular app integrations from Google, Zapier, and others.

Need legal proof of delivery? What you need to know:

Both Priority Mail options provide fast, secure delivery with a mailing receipt and USPS Tracking included at no additional cost. A recipient's signature is provided for Priority Mail Express at no additional cost; with Priority Mail Plus a signature can be requested for an extra fee. First-Class[4] Certified Mail, also available from Click2Mail, provides for a delivery record that is maintained by the Postal Service and a Return Receipt that provides proof of delivery can be purchased for an additional fee.
